Plugins

The image displays a collage of QGIS Plugin Manager windows, illustrating the process of finding and installing plugins. The main window shows the 'Plugins' menu and the 'Manage and Install Plugins...' option. Below it, the 'Recent Projects' and 'Project Templates' sections are visible. The 'Plugins' window is open, showing a list of plugins categorized by 'Alle' (All) and 'Ikke installeret' (Not installed). The search bar is highlighted with a red box, and the search results are listed below. The search term 'QLR' is entered, and the results include 'Qlr Browser'. The search term 'Danmark' is entered, and the results include 'Danish Address Tools', 'Dataforsyningen', 'DMI Open Data', 'DMP Data Catalogue', 'FlyFotosDK', 'GeoFA', and 'Geosearch DK'. The search term 'Paste' is entered, and the results include 'Append Features to Layer', 'Copy_Coords', 'Density Analysis', 'Easy Copy and Paste', 'Feature Transfer Tool', 'Geometry Paster', 'GoToH3', 'NextGIS OGRStyle', 'Power Clipboard', 'Quick GeoJSON', 'QuickWKT', and 'Zoom to Paste'. The search term 'WKT' is entered, and the results include 'Advanced Map Downloader', 'Batch_Csv_Wkt_Importer_Fr', 'Batch_Csv_Wkt_Importer_US', 'Canvas Coordinates', 'CSV Geometry Export', 'CSV Geometry Import', 'Drag and Drop CSV', 'EarthDaily', 'Get WKT', 'Lat Lon Tools', 'MixExport', 'ODKTrace2WKT', 'Plan Exporter', 'Plain Geometry Editor', 'QGISPARQL-Layer2Triple', 'QuickCopy', 'QuickWKT', 'Triple2Layer', 'WKT Bulk Loader', and 'XYZ/MGRS Coordinate Tool'. The 'QuickWKT' plugin is highlighted with a green box. The 'Geometry Paster' plugin is highlighted with a green box. The 'Qlr Browser' plugin is highlighted with a green box. The 'Danish Address Tools' plugin is highlighted with a green box. The 'Dataforsyningen' plugin is highlighted with a green box. The 'DMI Open Data' plugin is highlighted with a green box. The 'DMP Data Catalogue' plugin is highlighted with a green box. The 'FlyFotosDK' plugin is highlighted with a green box. The 'GeoFA' plugin is highlighted with a green box. The 'Geosearch DK' plugin is highlighted with a green box. The 'Append Features to Layer' plugin is highlighted with a green box. The 'Copy_Coords' plugin is highlighted with a green box. The 'Density Analysis' plugin is highlighted with a green box. The 'Easy Copy and Paste' plugin is highlighted with a green box. The 'Feature Transfer Tool' plugin is highlighted with a green box. The 'GoToH3' plugin is highlighted with a green box. The 'NextGIS OGRStyle' plugin is highlighted with a green box. The 'Power Clipboard' plugin is highlighted with a green box. The 'Quick GeoJSON' plugin is highlighted with a green box. The 'QuickWKT' plugin is highlighted with a green box. The 'Zoom to Paste' plugin is highlighted with a green box. The 'Advanced Map Downloader' plugin is highlighted with a green box. The 'Batch_Csv_Wkt_Importer_Fr' plugin is highlighted with a green box. The 'Batch_Csv_Wkt_Importer_US' plugin is highlighted with a green box. The 'Canvas Coordinates' plugin is highlighted with a green box. The 'CSV Geometry Export' plugin is highlighted with a green box. The 'CSV Geometry Import' plugin is highlighted with a green box. The 'Drag and Drop CSV' plugin is highlighted with a green box. The 'EarthDaily' plugin is highlighted with a green box. The 'Get WKT' plugin is highlighted with a green box. The 'Lat Lon Tools' plugin is highlighted with a green box. The 'MixExport' plugin is highlighted with a green box. The 'ODKTrace2WKT' plugin is highlighted with a green box. The 'Plan Exporter' plugin is highlighted with a green box. The 'Plain Geometry Editor' plugin is highlighted with a green box. The 'QGISPARQL-Layer2Triple' plugin is highlighted with a green box. The 'QuickCopy' plugin is highlighted with a green box. The 'QuickWKT' plugin is highlighted with a green box. The 'Triple2Layer' plugin is highlighted with a green box. The 'WKT Bulk Loader' plugin is highlighted with a green box. The 'XYZ/MGRS Coordinate Tool' plugin is highlighted with a green box.

Til venstre vises en liste med plugins, der er tilgængelige i QGIS, både plugins der allerede er installeret og plugins, der er tilgængelige via download. Visse plugins installeres sammen med QGIS men de fleste kan downloades via Plugin Repository.

Du kan midlertidigt aktivere eller deaktivere et plugin. For at **aktivere** eller **deaktivere** et plugin, klik på afkrydsningsboksen eller dobbeltklik på navnet...

Plugins, som vises med **rod** er ikke tilgængelige pga. et eller flere problemer. De er også vist under fanebladet 'Ugyldig'. Vil du se flere detaljer om et plugin, klik på pluginnavnet. Det er også muligt at geninstallere - eller afinstallere pluginet herfra.

Plugins indstillinger

The image displays three overlapping windows from the QGIS application, showing the configuration settings for various plugins. Red boxes highlight specific fields and options:

- Generelle indstillinger — QlRBrowser**
 - Rodbibliotek:** `T:\GIS\TEMASTYRING\QLR\`
 - ☒ Skjul numeriske præfikser (formateret: '01~xxxx.qlr')
- Options — DMP Catalogue**
 - Catalog URL:** `https://datacatalog.miljoeportal.dk/api`
 - WFS WMTS WMS:** `WFS WMTS WMS`
 - ☐ Override Datafordeler credentials
 - ☒ Override Dataforsyningen token
 - Token:** `346c909ff08b8de100e2d37919f785dc`
 - ☐ Anonymized usage tracking
- Options — Dataforsyningen**
 - Dataforsyningen token:** `403d8b2f98d267f9c613606a34b8091c`
 - Datafordeler API-key:** `LJeY9GEbh5Gr4p1DYIN8jtzY11re2n10jGAab5xrAihOe79zx7O8kESSQVnoJyPW6pmgngkUE`
- Options — Geosearch DK**
 - Token to Dataforsyningen:** `346c909ff08b8de100e2d37919f785dc`
 - Limit the search to the following municipalities:** Municipality codes: `580`
 - Limit the search to the results from these types:**
 - ☒ Addresses ('adr')
 - ☒ Place names ('ste')
 - ☒ Postal codes ('pos')
 - ☒ Cadastral numbers ('mat')
 - ☐ Voting districts ('ops')
 - ☐ Police districts ('pol')
 - ☐ Municipalities ('kom')
 - ☐ Regions ('reg')
